# MOVIE NIGHT

MONDAY | JUNE 26 | 4:00-8:00 P.M.

Hosts: Suzanne Weaver & Steve James

**Movie start time 4:00pm**

Raw, riveting, and powerful, *MASS* is one of those rare films that audiences and critics alike applaud (95/91 Rotten Tomato Score). One major film critic commented, "it was one of the ten best movies of 2021..." In his masterful directorial debut, Fran Kranz, a graduate of the prestigious David Geffen School of Drama at Yale University has worked within a small budget and short shooting time to create a superior, out-of-the-box film. He has wrung out of four actors truly masterful and unforgettable performances. *MASS* is an absorbing, intimate, and honest film about a conversation that most people can not have. *MASS* is a serious movie about loss and pain. There is no sex, nudity and profanity is not an issue. The *MASS* dialog addresses violence without showing violence on the screen. (PG-13)
